

# DELTACO RETAIL CABLES

Quality, safety and sustainability

Certification – why DELTACO cables?

Assortment overview

Packaging

In-store solutions

**Products** 

#### QUALITY

Phenomenal quality comes from care. Care for the user experience, for your security and wellbeing, and the world we leave behind for future generations. When you are as quality-minded as we are, offering generous warranties is a given. That is why our warranties extends up to lifetime on selected products.

#### SAFETY

Whenever you purchase a DELTACO product, you can rest assure it has met all existing safety requirements and surpassed our exceptionally high standards. Furthermore, all DELTACO products are regularly checked to ensure the quality during their lifetime. Certificates are reliable quality indicators, and most of our USB Cables are certified according to current USB standards to work optimally with all your devices

#### SUSTAINABILITY

While we welcome technological progress, we believe some things should not change – the environment for example. We care about sustainability and minimizing negative environmental USB standards to work optimally with all your devices impact is our collective responsibility. To lessen our own environmental footprint, we strive to use FSC certified material in all our packaging and minimize the use of plastic, and if it is used, it is always recyclable.

Our environmental engagement does not end there. To improve and develop sustainability, we continuously encourage our suppliers to become members of ethical partner organizations such as BSCI or SEDEX.

In summary, we care. We really do. And that care drives us to keep producing exceptional products and to find ways to improve our lives as well as our surroundings – now and for countless years to come.

## **CERTIFICATION – WHY CHOOSE DELTACO CABLES?**

#### **HDMI® LICENSING ADMINISTRATOR**

**HDMI ULTRA** certification guarantees that the cable can handle all new features introduced with HDMI 2.1 including bandwidth of 48Gbps for uncompressed 8K resolution.

#### **HDMI PREMIUM**

Cables are tested to ensure they support the full 18Gbps bandwidth from the HDMI 2.0b specification with an EMI test to ensure cables minimize interference with wireless signals. This will give end users confidence when purchasing new HDMI® cables for their 4K/UltraHD products that may include features such as 4K@60Hz, BT.2020 and HDR.

#### VIDEO ELECTRONICS STANDARDS ASSOCIATION

Certification program for video source and display products using DisplayPort<sup>™</sup> High Bit Rate 3 (HBR3), the highest data link rate supported by the DisplayPort standard version 1.4. DisplayPort interfaces with HBR3, which are now available in consumer products, can drive 8K video resolution using a single connection, as well as multiple 4K displays. Key applications supported by HBR3 include high-performance gaming, augmented and virtual reality (AR/VR), and television broadcasting.

#### **USB IMPLEMENTERS FORUM**

The Universal Serial Bus (USB) has gone beyond its original intent to connect peripherals to PCs and is now a dominate standard in the interconnect market. USB can be found everywhere from PCs to consumer electronics to mobile devices. Because of its ease of use, speed and expandability, USB is the preferred connection for many consumers. This presents a continued market opportunity for the future. In order to realize this opportunity, USB products must continue to enhance the consumers' experience through high quality and ease of use.

## **ASSORTMENT OVERVIEW**

#### COMPUTER

DELTACO's full range of cables and adaptors can meet any of your needs when it comes to your office or home solutions. Big or small we have what you need, from SATA cables to video adapters.

#### **DISPLAY SOLUTIONS**

We do not only have cables to help, our DisplayPort cables and HDMI cables comes with Quality certificates, that not only ensures function but adds unrivalled performance. Easy to connect, easy to use.

#### **USB**

Do not hesitate, our USB cables and peripherals are of high-quality and when possible, quality certified to ensure optimal function and reliability.

Just connect and go!

## **ASSORTMENT OVERVIEW**

#### **VISION**

All you need to connect your Apple TV and PlayStation or other devices for experience content in high resultion on your big screen. The range includes all from ULTRA certified HDMI cables to standard antenna cable.

#### **AUDIO**

Even if other companies are removing their 3.5 mm connectors, DELTACO does not forget our legacy connectors and demands. We still need them now and for years to come. Reliable assortment of audio adapters and cables. We have 3.5 mm, TOSLINK, XLR, RCA, digital and analog, and more!

#### **NETWORK**

Network patch cables for quick installation and long cables for bigger installations and projects. Range of readymade patch cables in white to discrete fit your home or in black color.

Great in-store presence begins with visually great looking packaging and package sizes that fit into the retail space.

DELTACO cables packaging has been developed with the in-store presence in mind.

Therefore we work with just 3 packages sizes do our best to keep sizes similar to each other while still optimizing on the amount of paper use in the production.

The result is a great looking in-store presence and an easy to handle space.

Retailers and consumers benefit from a good retail solution with strong visual appearance and clear product communication.

Assortment sizes and use of inlays is optimized to give as good a facing as possible.

Wall breakers and signs available to re-skin and organize the shop facings and guide the consumers.

This will take the DELTACO brand to the next level.
