WEBCAM COVER KEEPS YOU SAFE 2PCS

Deciding who can and can see what and where is a hot topic. Have you ever considered that if you are sitting in front of a laptop, you always have a camera that can see you, everything and everyone in your background? The lamp may be off, but there are ugly fish out there that can "fake" just that. With this webcam cover, you can decide for yourself whether your camera should be able to show something or just an empty night black image.
